AMD™ RS760 Chipset: Built for Office Productivity

Systems based on the AMD 760G chipset are packed with the latest technologies you need for your home office or small business – DirectX®10 for a Windows Vista® Premium experience and expandable to accommodate additional storage for your files. Help increase your productivity with ATI SurroundView™1 and display documents on more than one monitor with the addition of an ATI Radeon™ graphics card. The AMD 760G chipset also provides an energy efficient platform to help consume less power and help lower your energy bills. Paired with an AMD Athlon™ X2 Dual-Core processor, this system provides a competitive, stable and affordable solution.

Hyper Transport Technology 3.0

The highly scalable Hyper Transport 3.0 is capable to provide incredible bandwidth of the system bus up to 20.8GB/s which would dramatically elevate the efficiency of computing performance.

Serial ATA2 3Gb/s&RAID

This platform supports reliable storage solution for enhanced data protection and data accessing performance. Serial ATA 3Gb/s is firstly introduced in this platform to provide blazingly 3Gb/s bus bandwidth thus higher disk performance. The SATA RAID allows multi-disk designs to be set up as RAID 0, 1,10 based on users' priority of protection/performance, and which even makes more accessible by introducing the innovative windows-based facility
